INTRODUCING

THE GALLERY COMPOSITE DOOR

MAKE A STATEMENT

Whether you're returning home from a busy day or welcoming a visitor, you want your front door to create a great first impression so only the most stunning doors feature in our collection.

Take inspiration from our contemporary and traditional door styles to choose the look which compliments your home. Bold colours, finished to modern technical standards will not only enhance the appearance of your home but require virtually no maintenance so you can relax in the knowledge that the hard work has been done for you.

MAKE AN ENTRANCE

Let your door really make an entrance by selecting stylish accessories. Handles can be fitted in either modern handle positions or choose a more traditional door pull fitted centrally together with the heritage lock position.

Stunning glazing options allow you to flood your hallway with light, compliment the colour of the door with coloured glass, or maintain your privacy by choosing a solid door panel.

No need to worry about heat loss either as our doors are well insulated and we only use the most energy efficient glass.

Our Composite Door Collection is a complete range of thermally efficient composite doors manufactured to the highest quality standards. There are 19 Traditional styles and 9 Contemporary styles offering you the best choice for your home and our unique Inox range (page 32) with stainless steel glazing covers, adds exclusive designer style. We also offer doors with toplights and sidelights when required in either a matching composite side panel or glass options.

For disabled access we offer a Building Regulations Part M compliant aluminium threshold.

LOCK POSITION OPTIONS

Sometimes the small details really make the difference. That's why we've even considered lock positions when it comes to creating the perfect door. Simply choose the option that best suits you to add the personal finishing touch.

The Heritage Lock option allows you to place the lock higher up the door for all slam shut designs.

The Standard Lock option places the lock in the middle of the door for all slam shut designs.

PULL BAR LENGTH OPTIONS

Big and chunky, small and dainty, the choice is yours. We have various pull bar lengths to let you add yet another personal stamp on your chosen door. Simply choose an option and we'll do the rest!

TRADITIONAL DOORS

The range of traditional doors are designed to replicate the most popular timber doors and come with highly defined mouldings and realistic wood-grain embossing on the surface. Whether used in a Victorian home, a modern townhouse or a farmhouse cottage, these doors always add to the appearance of the entryway and with the widest range of styles available in the market, there is a door for everyone.

These doors are transformed by the choice of decorative glass and colour and with 16 door colours available and a huge range of glass options from the simple diamonds of Classic through to the stunning multi-faced beveling and black chrome of Reflections, these doors can make a real statement.

With the range of Traditional door styles, we can also tailor the furniture to suit your tastes. Finger pulls are an option should you wish to change from the standard lever handle.

DOOR LOCKS AND FURNITURE

Our multipoint lock range offers outstanding protection against attempted burglary with our doors having passed the rigorous PAS 24: 2012 tests including: manual attack, mechanical load, soft and hard body impact, plus a key/thumb cut through test. The lock will comprise of a series of hooks with a centre deadbolt lock case.

The hooks are engaged into receivers in the outer frame upon lifting the handle or by a semi-automatic function on 'slam-shut' variants. The designs protect the door from forced entry by remaining firm inside the receiver.

Thumb turn cylinders are required on new build installations and form part of Document Q.

On door sets with lever handles, the lock is centrally set with hook locks set close to the top and bottom of the door, whilst on part of the Contemporary and Inox range, we offer a multipoint lock with a high level cylinder and escutcheon offering the same security features as standard doors.

All locks are manufactured in Europe to exceptional quality standards and exceed current regulations. The manufacturers are quality controlled to ISO9001 and ISO14001.
